Scope of work

- 1. The content Management System has to be upgraded to the latest version compliant with NIC servers.*
- 2. PHP, Apache and Mysql are to be upgraded to the latest versions which are compliant with NIC servers.*
 - *PHP 7.2 and above.*
 - *Apache 2.4.41 and above.*
 - *Mysql 7.4 and above.*
- 3. “Click jacking” vulnerability on the website has to be fixed.*
- 4. SSL certificate from any free SSL provider has to be installed for the website. Along with this, a user friendly provision has to be done on website administrator login for renewal of SSL certificate so that after every 90 days the free SSL certificate can be renewed with minimum effort. The documentation for doing the same has to be share with this office.*
- 5. Provision has to be added for display of scrolling or blinking contents on the pages of website.*
- 6. Provision to be done for directly uploading an image on any article/webpage of website.*
- 7. The support should be given by the agency for a period of not less than one year without any additional charge.*

Amounts should be quoted separately for each scope of work. Interested agencies can submit sealed quotations on or before 05/01/2021 to the address “Director, Meteorological Centre, Panaji, Goa – 403001.
